# COMPANY OVERVIEW

---

## ABOUT US

---

Hitouch Technologies Private Limited, incorporated in the year 2012 provides consulting and IT services. Hitouch has been a innovator in offering more refined and easy solutions to its clients. The company offers a wide range of software services, namely ERPs Software Development and maintenance, Web Application Development, ecommerce and other IT services.

We have assembled a talented team of digital strategists, developers, designers, marketers, product engineers, project managers and business developers to work in a collaborative manner on our client projects. We build on each other's expertise, working together in teams to generate great outcomes for projects.

## OUR BUSINESS PHILOSOPHY

---

Our belief in customer's success as our success has propelled our growth and helped us build an affable relationship with our clientele spread across the globe. In today's dynamic and ever evolving business universe Hitouch steadfast commitment is to provide and deliver the full value to our clients regardless of circumstances and empower them to succeed. In Hitouch culture we strongly believe that our success is completely tied with success of our clients. We differentiate it from other operations emphatically, driven by a set of unique strengths.

## AT GLANCE

---

- ▶ One-stop IT services provider for web, mobile, erp applications and consulting services
- ▶ Dedicated, competent and technologically enriched team of 50+ experts
- ▶ Thorough understanding of business models and latest technology trends
- ▶ Hitouch developed its own Next-gen Platform for next-gen Enterprise Applications
- ▶ **Our Business focus** – Platform, Products & Services

## FACTORS FOR SUCCESS

---

Delivering locally relevant business value Hitouch has been able to customize its services and solutions to the requirement of its clients. Hitouch has delivered enhanced customer value to its existing clients- evidenced by the 90 percent plus repeat business that the company generates. Understanding client-specific needs and the value proposition has been key to this.

# OUR SERVICES

## ERP DESIGN & DEVELOPMENT

Enterprise resource planning (ERP) is business process management software that allows an organization to use a system of integrated applications to manage the business and automate many back office functions related to technology, services and human resources.

## CLOUD SOLUTIONS

Cloud computing refers to computational process which can be done on demand via a computer network, or a virtual online space without requiring advanced infrastructure. This is low cost and easy to manage approach for handling online business.

## IT CONSULTANCY & STAFFING

For companies looking at outsourcing, Hitouchweb offers the ability to entirely or partially take over the development, maintenance, conversion and enhancement of all their custom built or packaged software

## ECOMMERCE WEB SOLUTIONS

Electronic commerce or ecommerce is a term for any type of business, or commercial transaction that involves the transfer of information across the Internet. It covers a range of different types of businesses, from consumer based retail sites

## MOBILE APPLICATION

Mobile application development is a term used to denote the act or process by which application software is developed for mobile devices, such as personal digital assistants, enterprise digital assistants or mobile phones.

## WEBSITE DESIGN & DEVELOPMENT

Do you have a business and don't have a website? If you said yes, it's almost as if your business doesn't exist. Your website decides your business, neat and clean websites attracts more customers.

# Our Team

**Mr. R. K. Jain**  
(Founder, Director)

R.K. Jain has played a pivotal role in setting up the infrastructure and steering Hitouch. His vast experience drives Hitouch towards successful execution and evolution.

**Mr. Anurag M Sethi**  
(Chief Marketing Officer)

Anurag is a versatile and seasoned leader with 16+ years of business, strategy, product and sales leadership. Engine reboot, recondition, tuning. That's what Anurag does.

**Mr. Anurag Jain**  
(Chief Architect Officer)

Anurag Jain is a technology leader. His experience in managing large, strategic software development teams and product architecture efforts is the force behind the range of ERP Daddy Series solutions.

**Mrs. Puja Rawat**  
(Chief Creative)

Puja has the ability to see the big picture as well as the tiniest detail. She is an expert in designing interactions as well as in detailing the visual aspects of the product.

**Mr. Amardeep Bhurji**  
(Chief Advisory)

Amardeep is the global head of delivery excellence group at Hitouch, responsible for governance of service delivery, compliance, and risk management.

**Ms. Sonal Jain**  
(Chief People Function)
